(DOI:10.5114/wo.2012.30054)

At the end of the paper, the following information about funding was missed:

This article was supported by a grant from the Polish Ministry of Science and Higher Education No. N N402 684740.

Contemporary Oncology/Współczesna Onkologia is a scientific and educational, peer-reviewed, bimonthly journal which publishes Original papers on experimental and clinical oncology, Review papers, Editorials and Letters to Editors. Journal does not accept Case reports any longer.

The articles in this journal are published open access (OA).

Papers should be submitted to the Editorial Office by electronic Editorial System at the following URL:
<http://panel.termidia.pl/?wo>

Articles should be submitted in English. They will be published both in paper and on-line.

The type of work, the authors and their affiliations, as well as title, abstract and key words (according to Index Medicus, minimum 4) should be entered in the appropriate places in the electronic submission panel. Please do not submit data on the authors (personal information and affiliations) in the file content of the work.

Preparation of manuscripts

Please follow the instructions relevant to type of manuscript being submitted.

Structure of papers

- **Original papers** should be structured in the following order: *Introduction, Material and methods, Results, Discussion, References*. A *Statistical methods* section must be included where relevant in *Material and methods* section. The total length of the manuscript including figures and tables should not exceed 3000 words.
- **Reviews** may have free-form layout. Authors are encouraged to use section headings for ease of reading. They do not have an introduction, methods, results or discussion sections. Type double-spaced. For instructions on references, tables and figures please refer to the section on original papers. Reviews should have an unstructured abstract of up to 150 words.
- **Editorials** are written on invitation. For instructions on references, tables and figures please refer to the section on original papers. Editorials should have an unstructured abstract of up to 150 words.
- **Letters to Editors** may include up to 1000 words and 10 references. Do not include abstract nor subheadings. They may contain one figure or table. Letters to Editors could focus on a specific article that has appeared in recent issue of *Contemporary Oncology/Współczesna Onkologia*. Letters must be submitted within 4 weeks of the print issue date of the article.

Abstracts

- **Abstracts** of original papers should be structured (incorporating the following sections: *Aim of the study, Material and methods, Results and Conclusions*) and be between 200 and 250 words in length. As this may be the only part of the article read by some readers it must include sufficient detail for an adequate summary of the whole manuscript.
- **Graphical Abstract** should be a single (one-single panel), concise, pictorial and visual summary of the main findings of the article. A key figure from the original paper, summarising the content can also be submitted as a graphical abstract. The Graphical Abstract will be displayed in online search result lists, the online contents list and the online article, but will not (yet) appear in the article PDF file or print. Technical requirements:

– Image size: Please provide an image with a minimum of 1020 × 680 pixels (hwx) using a minimum resolution of 300 dpi. If you are submitting a larger image then please use the same ratio. Please note that your image will be scaled proportionally to fit in the available window on Termedia.

– Font: Please use Arial, 12–16 points.

– File type: preferred file types are TIFF, EPS, PDF or JPG.

– No additional text, outline or synopsis should be included. Any text or label must be part of the image file. Graphical Abstract should also use simple labels and text sparingly, be free of distracting and cluttering elements.

References

- **References** must be numbered consecutively, in square brackets, in the order in which they are cited in the text. References should contain names and initials of authors; if there are more than 8 authors, use et al. after three names; article title, Index Medicus abbreviation for the journal title, year of issue, volume and inclusive pages. Chapters in books or monographs should be cited as follows: names and initials of authors, chapter title, book title, name and initial of the book editor, volume, name of the publisher, place of publishing, year, pages. If you use Endnote or Citation Manager to organize your references, follow instructions for “Annals of Oncology”. Please delete website addresses from Word documents containing references generated automatically (using Endnote or Citation Manager) in order to avoid difficulties with conversion of references to PDF files.

Examples:

- article: McKay JA, Lloret C, Murray GI, Johnston PG, Bicknell R, Ahmed FY, Cassidy J, McLeod HL. Application of the enrichment approach to identify putative markers of response to 5-fluorouracil therapy in advanced colorectal carcinomas. *Int J Oncol* 2000; 17: 153-8.
- book: Zatoński WA. Nowotwory złośliwe w Polsce. Wiedza i Życie, Warszawa 1993.
- book chapters: Schranz D, Morkowski S, Abelev G. Affinity isotachoforesis on porous membranes. In: Affinity electrophoresis: principles and application. Bręborowicz J, Mackiewicz A (eds.). CRC Press, Boca Raton, Ann Arbor, London 1992; 61-70.

Figures and Tables

- **Figures** should be provided as separate files (one figure – one file) in one of the following formats: .cdr, .tif, .jpg, .ai, .bmp or .eps. Images should be of the resolution of 300 dpi and in .tif or .jpg format. If a figure (image) has been published previously, the original source must be acknowledged and written permission to reproduce the material from the copyright holder must be submitted. Figure legends should be in English and included at the end of the manuscript (following references) in the Figure legends section.
- **Tables** should be sent in as separate files with titles. Figure and table placement should be marked in the article; figure and table legends should be provided on separate pages.

Manuscript Checklist for Authors

1. Carefully read the instructions before submission.
2. Make sure that the original double-spaced typed manuscript, with abstract (if required), references, legends, tables, cover letter and figures, is submitted.
3. Leave the right-hand margin unjustified.
4. Provide Systeme International (SI) units for all scientific measurements.
5. Put references in the order they appear in the text, making sure that all are cited.

6. Provide a structured abstract (when required).
7. Include a completed authorship declaration that includes the title of the manuscript, signatures for copyright, authorship responsibility, and a financial interest statement from all authors.
8. Include written permission from each person identified in the text as a source for personal communication or unpublished data.

Conflict of interest

Authors are expected to describe sources of the research funding, a role of potential sponsor in planning, executing and analysis of the study, and the influence (bias) the funding organization had on the content of the article.

Other relationships (such as employment, consultancies, stock ownership, honoraria, paid expert testimony) providing potential sources of conflict of interest in relation to the submitted article should also be disclosed.

Patients' Rights and Informed Consent

When reporting experiments on human subjects, authors should indicate whether the procedures followed were in accordance with the Helsinki Declaration of 1975, as revised in 2000 (concerning the ethical principles for the medical community and forbidding releasing the name of the patient, initials or the hospital evidence number) and with the ethical standards of the responsible committee on human experimentation (institutional and national).

Information regarding the ethical committee approval for conducting the research and the informed consents of patients for participating in the studies should be included in the methods section of those articles, in which the diagnostic intervention or the treatment result from non-routine procedures.

The authors presenting case studies are obligated not to disclose patients' personal data. Regarding photographs, in case of any doubt the picture inadequately protects the patient's anonymity his consent is required for publication.

Articles describing animal studies should contain information of being in accordance with local regulations (institutional and national).

The scope of work of the authors

The journal applies procedures ensuring the originality of manuscripts in accordance with the criteria of the ICMJE (International Committee of Medical Journal Editors) and WAME (World Association of Medical Editors). Therefore it is also necessary to provide information on the scope of input of each author to the publication, among others who is the author of the concept of the study, assumptions, methods, study protocol, and the like, as well as on the affiliation of each of the authors. The Editorial Office observes the highest standards of scientific publication and the cooperation with authors is based on the transparency of information on the actual input of persons/institutions in the development of the publication. The *Contemporary Oncology/Współczesna Onkologia* will not tolerate plagiarism in any form. All cases of ghostwriting and guest authorship will be liable for customary penalty as an indication of scientific negligence.

Review process

Manuscripts submitted to the Editorial Office are assessed by reviewers.

The rules of review are in conformity with the guidelines of the Ministry of Science and Higher Education (www.nauka.gov.pl). The *Contemporary Oncology/Współczesna Onkologia* has always used a double-blinded peer review process. The Editorial

Office verifies that the submitted manuscript complies with the journal's formal requirements and its profile. If the manuscript evidently does not match the profile of the journal, or if it fails to comply with the basic formal requirements, it is rejected at this stage. Manuscripts that receive positive in-house reviews are followed by peer review by at least two reviewers. The Editorial Office chooses the reviewers based on the subject of the submitted manuscript. The competences of a reviewer are confirmed by the academic achievements. The reviewer is independent of the author of the reviewed manuscript and the Editorial Office of the journal. An invited reviewer has 7 days to accept or decline the invitation to review.

The reviewers can refuse to review a manuscript if:

- he/she judges that the subject of the manuscript goes beyond his/her factual knowledge,
- he/she does not have the time required to prepare a review,
- a conflict of interest occurs between the Editorial Office.

In the review process following qualities are evaluated: the novelty of the manuscript, importance of obtained results, methods, statistical analysis and data quality, the presentation of results, the quality of discussion and appropriate selection of the literature. Evaluation takes place in the points system, on a scale of 1 to 6 (1 – lowest rate; 6 – highest rate), using a special form of reviews, which is available only to the Editors. Besides, the review should include:

- conclusion on the overall assessment of the manuscript (accept without change, accept after minimal changes, rate manuscript once again after major changes or reject),
- final remarks.

The process of evaluation will not take more than 30 days. The recommendations of the reviewers are presented to the author in writing. The review procedure respects the principle of confidentiality.

The Editorial Office reserves the right to reduce manuscripts and to make language corrections without consulting the author. Other changes are consulted with the authors. The Editorial Office sends manuscripts to the authors for authorization with a request to return them within 48 hours. Editors work to provide authors with a request to authorize and return it within 48 hours.

Proofs

Authors will receive a proof from an Assistant Editor. That proof should be corrected and returned within 48 hours, preferably by e-mail or fax. If the Publisher receives no response from the authors after 7 days, it will be assumed that there are no errors to correct and the article will be published.

Publication charge

Please note that there is an obligatory charge (= 150 Euro) for the manuscript being accepted for publication in *Contemporary Oncology/Współczesna Onkologia* journal. We send invoice for payment after articles are accepted for publication.

The publisher acquires all copyrights, on an exclusive basis, to manuscripts published, including the right to publish in print, using electronic carriers or others, and on the Internet. Abstracts may be published without the Publisher's permission.
